

# Beach Hunt

The address of the participating community beach:  
(Add community beach name here)

The weather is perfect and the beach is one of the best in the area! But there's one problem:

Did you know?  
There are about 100 million crabs living near  
our coastline. That's a lot of crabs!

Here's some things to look for on your beach:

**1**

On the beach, you will find a lot of things you don't want to see. Crabs are great, but they don't like all the things you find there.

Here are some things you can bring home from the beach. If they have crabs, you should keep them from these things:

**2**

1. Seashells
2. Beach toys
3. Things you find
4. Things you find on the beach
5. Beach toys
6. Things you find
7. Beach toys
8. Things you find
9. Beach toys
10. Things you find on the beach
11. Beach toys
12. Things you find
13. Things you find on the beach
14. Beach toys
15. Things you find
16. Things you find on the beach
17. Beach toys
18. Things you find
19. Things you find on the beach
20. Beach toys

**3**

Why do crabs like to eat these things?  
Crabs like to eat these things because they are easy to eat.

Why do crabs like to eat these things? By eating these things, crabs can find food.
