Wyre Local Plan Issues and Options 2024

The purpose of a local plan is to guide how the borough physically develops over the next 15 years.

It will establish a vision for Wyre, and the strategy for delivering that vision. It will identify the overall amount of different types of development needed to sustain the borough and where that development should, and should not, take place. It will also identify land that should be protected for its environmental or social use and encourage high quality design and a regard for our valued heritage and landscape. **Your input into this early stage of local plan preparation is important and we would value your comments on how Wyre plans for the future.**

What happens next?

The Council will consider all of the comments received and publish a summary with its response. We are also continuing to gather the evidence we need to support the Plan.

The next key stage will be the publication of a Draft Local Plan in early 2025 which will contain draft policies and draft site allocations and will be the subject of a further public consultation.
