

Site Allocation SA1/6 – West of Cockerham Road, Garstang

School provision

Key Development Consideration 8

“The development should make land available for a new primary school which will form part of the financial contributions towards education.”

Proposed amendment

The development should make land available for a new primary school which will form part of the financial contributions towards education.

If the Planning Authority is satisfied that land is not needed as a result of approved school expansions to provide sufficient additional places at local primary schools to address the impact of the developments in Garstang and surrounding area, a contribution should be made towards the expansion of existing schools.
